

Introducing the official Donate Life Florida specialty license plate.

Presale vouchers available NOW!

You can help us reach
our sales goal of 3,000
license plate vouchers.

Funds raised through the sale of this new specialty license plate will help Donate Life Florida continue to provide donor education across the state and to manage Florida's official organ and tissue donor registry.

- The cost of the specialty plate itself is \$25 – all of which goes to Donate Life Florida to manage Florida's Joshua Abbott Organ and Tissue Donor Registry and to increase awareness for the importance of lifesaving donation – plus \$8 in state and branch fees. The total cost of the license plate is \$33.

- A voucher to get the plate can be purchased starting October 16 for \$33. Buyers will get a certificate to redeem for the actual plate once Donate Life Florida has sold 3,000 vouchers. Donate Life Florida has 24 months to do that but hopes to achieve that goal much sooner.

- Vouchers can only be purchased in person at your tax collector or DMV office. Many offices are taking customers via appointment only, so please check with the offices in your county for the rules. Here is link to all of the county offices: www.FLHSMV.gov/locations.

- Vouchers are available for motor vehicles only – no motorcycles or trailers – and commercial vehicles weighing less than 26,001 pounds.

Here are a few things to know about lifesaving donation:

- One organ donor can save the lives of up to eight people.
- One tissue donor can save or enhance the lives of up to 75 people.
- There are more than 109,000 people on the national transplant waiting list. Of them, more than 5,200 are listed at transplant centers in Florida.
- Thanks to the generosity and selflessness of donors and their families, more than 39,000 patients received lifesaving transplants last year. Of those patients, 2,700 were transplanted in Florida.
